

Chem Charades

*Ever played Dumb Charades? Well Chem Charades is its version 2.0!
You will be given properties of a compound / element and you will have to explain it to your partner. If you already know the properties- you will get bonus points!
Act like DiCaprio or Dance like MJ - You just can't speak!*

Rules and regulations-

Round 1: -

1. A team can have a maximum of three members.
2. Marking Scheme consists of two parts - Answering the question + The Team guessing the answer of acting.
3. A member (decide by the team itself) from a team will be given a question which he/she will try to answer without options. If it will be answered correctly, team will gain +4 else -1. In case he/she will ask for options, 4 options will be given. If then he/she answers correctly, team will gain +2 else -2.
4. If he/she still doesn't get the answer, the correct answer will be told to them.
5. Then he/she will have to act about the element/compound to his/her team members. If members guess it correctly, 6 points will be awarded else 0 points will be given.
6. The team has a maximum of 2 minutes to answer.
7. Few teams will be qualified for the next round based on the maximum points.

Round 2: - (Only for those who qualified round 1)

1. Selected teams will be assigned alphabets (A, B, C etc.).
2. One member from each team will be called one by one and they will be given a slip in which a name of elements/compounds is written.
3. Opportunities to answer will be given to the teams starting from A. If they fail, the next team will have a chance to guess the answer or they can pass the question to the following team. The sequence will be followed till the last team gets the chance to answer the question.
4. The team of the person acting will get a maximum of 3 minutes to answer, the rest teams should guess their answer in this time only and wait for their turn.
5. If the first team answers it correctly, 6 points will be awarded and the round will further proceed.
6. In case if the first team cannot guess correctly will be passed to the next team and the points for correct answer will reduce to 3.
7. Finally, the team with the highest points will be the winner.

****Acting using Periodic Table, Element's Atomic number, forming letters with hands is restricted.**
